Our Materials

Premium HDPE

Feel the comfort and stability that comes from quality materials and close attention to detail. Breezesta furniture is made from a proprietary blend of nonporous and durable high density polyethylene (HDPE) lumber with recycled content that is heavier than most competitors' HDPE versions. Breezesta also uses thicker lumber profiles to craft strong and generously proportioned furniture made for all people. The final construction is the ultimate in weather-resistant furniture.

Best in Joinery

Sur-Lok joint mortise-and-tenon construction, typically seen in fine woodworking, is used in all our furniture pieces to ensure a refined design, additional sturdiness, and less fasteners. In fact, our color-matched, powder coated, rust-resistant and stainless steel fasteners are so subtle or entirely hidden that all you focus on is the rich color and stylish design of the furniture. All fasteners come with a **2-year corrosion warranty**. No one else offers that!

Fade-free Color

Breezesta's color visual and quality is second to none on the outside and inside. Highly saturated color is infused throughout the lumber so there's no worrying about white marks from scratches or nicks! Sunguard Technology, our proprietary formulation of ultraviolet inhibitors and stabilizers mixed with color pigment, protects the furniture from fading. We are the only manufacturer to **guarantee no fading for 3 years!** And because Breezesta makes its own poly lumber, the result is a unique surface graining with beautiful wood realism.

Lifetime Quality Promise

Although Breezesta looks like hardwood, it doesn't have any of the drawbacks: it is easier to maintain and is warranted against cracking, splintering, chipping, peeling, and rotting. Similarly, it has excellent advantages over natural or resin wicker and aluminum outdoor furniture. Perhaps, best of all, you have the peace of mind that it won't blow away or get damaged.

We're very proud of our quality materials and craftsmanship, and we stand behind them! All Breezesta furniture comes with a **limited lifetime warranty**, so you'll be able to relax in style for years to come. For full warranty details visit breezesta.com.

Captivaling Color

Nothing captures your personal style like the perfect color. That's why Breezesta offers the largest, exclusive color selection of recycled poly in the industry. Choose from 20 unique earthy, tropical, and primary colors - and everyone of them "green."

Our most recent irresistible color launches, Seaglass and Lagoon are quickly becoming new favorites! Seaglass is soothing, tranquil, and sophisticated, reminiscent of a relaxing spa environment, while Lagoon is mysterious and vibrant, calling to mind a private beach paradise with hypnotic turquoise waters. Both colors are sure to be new favorites!

Do you enjoy the freedom to choose with no limitation? Breezesta offers the most extensive mix-and-match color combinations of any outdoor poly furniture manufacturer. You can pick any 2 colors together – we call it multi-color. For color pairing inspiration, review our top selling color combinations below for the one that suits your vision of your outdoor space.

How to Order Custom Multi-Color Items

- 1. Select your item.
- 2. Choose your frame color.
- 3. Choose your seat/back slats color or your tabletop color.

Popular Color Combinations

Also, Breezesta is what environmentalists call a "full circle" product. It's not just made with post consumer recycled plastic, it includes post industrial recycled plastic and it's recyclable itself!

Breezesta will last season after season, but if you are ready to recycle it, simply remove the hardware before disposal. We consciously make these sustainable choices so you can have peace of mind about the impact of your purchase.

Visit Breezesta.com

and see how we transform used plastic bottles into our colorful furniture.

A Sustainable Choice

Purchasing Breezesta furniture is a choice you can feel great about!

Our purpose is to repurpose. Each year we remove millions of recyclable plastic bottles from America's waste stream that would otherwise accumulate in waterways and landfills. At our own recycling plant Trigon Plastics, we convert #2 milk jugs into durable, poly lumber and sell off all other plastic bottles for industrial usage. The recycled content of our poly lumber will vary by finish color. Curious to know the number of milk jugs needed to make each piece of furniture if it were all recycled? Look for the milk jug icon and number next to each product in the catalog.

chill collection

Easy like Sunday morning, our new Chill Collection is where laziness finds respectability! A little retro, a lot of hip, and very relaxing, lounge in our super comfortable loveseat, sofa, or deep seating chairs made for every body. With a supportive high back and just the right angle, we promise you will not want to get up.

So chill some wine or your favorite beverage in our convenient, convertible side table and serve your friends from the coffee table. Cushions may just elevate Chill to divine. You choose – freedom from cushions or cradled coziness. With a Breezesta Chill set, outdoor living is very cool indeed!

maintenance

Breezesta poly lumber is durable and virtually maintenance-free. It will never need to be painted or sealed because it will never stain or rot. It cleans up easily with a water hose or with a soft-bristled brush and a mild cleanser. High-pressure washers (with no more than 1,500 psi) can also be used when necessary. Even in harsh outdoor conditions—such as seaside homes where furnishings are exposed to wind, salt, and sand—our furniture needs very little care to maintain its beauty. Just another way Breezesta is made for relaxing.

To learn how to protect your investment, to properly care for the furniture and hardware, and when to use our specially formulated spray bottle products, please access the Care & Maintenance Guide on Breezesta.com.

durable

Breezesta poly has the look and feel of authentic wood, but unlike wood is quaranteed for a lifetime not to crack, splinter, chip, peel, or rot.

Our purpose is to repurpose. Breezesta furniture includes recycled plastic and is recyclable itself. This keeps plastic out of landfills and oceans.

sun guard technology

Backed by a 3-year fade warranty, our poly lumber maintains its rich color with an infusion of specially formulated color pigments and ultraviolet stabilizers and inhibitors.

weather resistant

Sun, wind, rain, salt spray—Breezesta withstands the seasons and their elements.

low maintenance

No painting, staining, or sealing of the poly is needed. Occasional inspection and cleaning is recommended to keep your furniture looking like new.
